Information request details

Request

Can you please provide a breakdown of the following for the last three financial years:
- detailed costs for implementing and running the controlled parking zones in the district
- the income generated from the household permits in each of the controlled parking zones
- the income generated from visitors permits
- where and how the surplus income is spent

Response

1- We do not hold separate accounts for controlled parking zones. Costs for the implementation of CPZs are met from the parking budgets.
2- We do not hold separate accounts for controlled parking zones. All income from permits goes into the on-street parking accounts.
3-. 2022/23- £137,194, 2021/22- £9127, 2020/21- £43,061
4- The council has made a surplus for on-street parking in the 2022/23 financial year. Previous years accounts demonstrate considerable losses. In accordance with the legislation, we will use the surplus to repay deficits that have occurred in previous years. KCC are responsible for highway improvements within the District. When and if the Council makes a surplus for on-street parking above £100,000, once deficits have been paid, then FHDC and KCC together will decide upon what schemes will benefit from the surplus.
