4. Description of the Proposed Development

What is the net increase in dwellinghouses proposed by the development? The number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses on the site immediately prior to the development.

16

Please describe the proposed development, including relevant information covering transport and highways impacts of the development; contamination risks on the site; flooding risks on the site; and impacts of noise from commercial premises on the intended occupiers of the development:

We propose to convert the existing Ross House B1 Office building into 16 individual Residential apartments under GPDO class O. The building will consist of 12 x 2 bedroom apartments and 4 x 1 bedroom apartments. These apartments will be 6 x 2 bed and 2 x 1 bed to each floor, as can be seen with the floorplans which will accompany this application.

The site will contain 19 parking spaces, 1 for each of the 16 apartments and 3 visitor spaces. A site plan with parking layout also accompanies this application.

Access to the site is from two access points from Ross Way. The first of which is a shared access for Ross House, Channel Rider Training and Saga. The secondary access point is a private access point specifically to Ross House only. Ross House as offices had capacity for 52 Cars at any one time, this proposal significantly reduces the traffic load to and from the site.

We have employed MRL Acoustics LTD to complete an Acoustic Noise Test, this was done from the first floor South West corner, closest to the sources of most noise to Ross House which is the Veolia Waste Disposal site & Channel Rider. Results accompany this application.

The building is not listed.

The building presents no flood or contamination risk.

We understand that whilst the drawings attached feature (in some instances) a bin store, that we will have to make a separate application for planning to install this on site. We request therefore that the bin store featured in any drawing relating to this application is not considered part of this application.

If the building was not in use on 29th May 2013, when was it last in use?

Date (DD/MM/YYYY)

What was the use of the building on 29th May 2013 or the last use before that date?

Offices for both the NHS and SAGA.

5. Checklist

Please read the following checklist to make sure you have sent all the information in support of your proposal. Failure to submit all information required could result in your notification being deemed invalid.
