

**NOTIFICATION OF DECISION OF
THE LOCAL PLANNING AUTHORITY**

Date of Decision: 14 February 2025

Email: planning@folkestone-hythe.gov.uk

Mr Jarvis
C/o Mr Adam Woodbridge
APX Architecture
Office 1a
The Old Dairy
Highland Court Farm
Bridge
CT4 5HW

Application Number: 24/2016/FH/PA

Proposal: Determination as to whether the prior approval of the Local Planning Authority is required under Part 3 Class Q of the Town and Country Planning (General Permitted Development) (England) Order 2015 for the change of use and conversion of a agricultural building and associated land (as identified) into one (Class C3) dwelling

Site Location: LAND ADJOINING 1 THE COPPICE, NEW ROAD, SALTWOOD

DECISION: APPROVE WITH CONDITIONS in accordance with the planning application and plans.

Subject to the following conditions:

- 1 (A) No development shall take place until a desk top study has been undertaken and submitted to and approved in writing by the Local Planning Authority. The study shall include the identification of previous site uses, potential contaminants that might reasonably be expected given those uses and any other relevant information. Using this information, a diagrammatical representation (Conceptual Model) for the site of all potential contaminant sources, pathways and receptors shall also be included.

- (B) If the desk top study shows that further investigation is necessary, an investigation and risk assessment shall be undertaken by competent persons and a written report of the findings shall be submitted to and approved in writing by the Local Planning Authority prior to commencement of the development. It shall include an assessment of the nature and extent of any contamination on the site, whether or not it originates on the site. The report of the findings shall include:

A survey of the extent, scale and nature of contamination;

(ii) An assessment of the potential risks to:

- Human health;
- Property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
- Adjoining land,
- Ground waters and surface waters,
- Ecological systems,
- Archaeological sites and ancient monuments; and

(iii) An appraisal of remedial options and identification of the preferred option(s).

All work pursuant to this condition shall be conducted in accordance with the DEFRA and Environment Agency document Model Procedures for the Management of Land Contamination (Contamination Report 11).

(C) If investigation and risk assessment shows that remediation is necessary, no development shall take place until a detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property and the natural and historical environment has been submitted to and approved in writing by the Local Planning Authority. The scheme shall include details of all works to be undertaken, proposed remediation objectives and remediation criteria, a timetable of works, site management procedures and a verification plan. The scheme shall ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land after remediation. The approved remediation scheme shall be carried out in accordance with the approved terms including the timetable, unless otherwise agreed in writing by the Local Planning Authority. The Local Planning Authority shall be given two weeks written notification of commencement of the remediation scheme works.

(D) No development shall take place until a verification report demonstrating completion of the works set out in the approved remediation scheme and the effectiveness of the remediation has been submitted to and approved in writing by the Local Planning Authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. It shall also include details of longer-term monitoring of pollutant linkages and maintenance and arrangements for contingency action, as identified in the verification plan, and for the reporting of this to the Local Planning Authority.

(E) If during development, contamination not previously identified is found to be present at the site, then no further development (unless otherwise agreed in writing with the Local Planning Authority) shall be carried out until the developer has submitted and obtained written approval from the Local Planning Authority, details of how this unsuspected contamination shall be dealt with. Following completion of measures identified in the approved remediation scheme a verification report shall be

prepared and submitted to the Local Planning Authority.

Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land, together with those to controlled waters, property and ecological systems, are minimised and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other off-site receptors.

- 2 The development hereby permitted shall not be carried out except in complete accordance with the following approved drawings and documents:

Location plan - 24_81_01, received 24 December 2024

Proposed site plan - 24_81_03, received 24 December 2024

Proposed elevations - 24_81_04, received 24 December 2024

Reason: For the avoidance of doubt and in order to ensure the satisfactory implementation of the development in accordance with the aims of Places and Policies Local Plan.

In determining this planning application, the Council has had due regard for all relevant matters and particularly the National Planning Policy Framework. This includes the duty to work positively with the applicant to resolve potential issues and seek acceptable solutions.

This decision relates ONLY to the requirements of . Separate determinations are required for other aspects of the planning regime, building regulations and environmental legislation. Any other permissions must be obtained separately from the relevant body.

The Council as Local Planning Authority expects the above Conditions to be complied with promptly. Where Conditions require details or other matters to be approved by the Council prior to commencement or occupation of the development, these must be submitted to the Council for its consideration well in advance, to ensure that there is no delay or loss to your project. Failure to observe the Conditions may result in enforcement action by the Council
