8th Floor,
10 South Colonnade
Canary Wharf
London
E14 4PU

Telephone: 020 7811 2700

February 2025
FOI_6942

The following information was requested on 8 January 2025 and clarified on 13 January 2025:

[On 8 January 2025 you requested:]

1.) How much money has been paid out in medical negligence pay-outs by NHS Resolution? I would like the figures for the following financial years: 2018/19, 2019/20, 2020/21, 2021/22, 2022/23, 2023/24

Listed by the individual NHS Trusts

- This includes payments to both patients and relatives of patients.*
- The information also relates to the year that the compensation payments were paid out, and the year that other costs were paid – regardless of whether the claim was submitted or related to an incident at an earlier time.*
- If possible, please include a breakdown of which department the pay-out was related to i.e..) maternity or Accident and Emergency and a general description of what the claim related to*

2.) How many medical negligence pay-outs have been made by NHS Resolutions? I would like the figures for the following financial years: 2018/19, 2019/20, 2020/21, 2021/22, 2022/23, 2023/24

Listed by the individual NHS Trusts

- This includes payments to both patients and relatives of patients.*
- The information also relates to the year that the compensation payments were paid out, and the year that other costs were paid – regardless of whether the claim was submitted or related to an incident at an earlier time.*
- If possible, please include a breakdown of which department the pay-out was related to i.e..) maternity or Accident and Emergency and a general description of what the claim related to.*

[We contacted you on 9 January 2025:]

Thank you for your request for information below.

We are aware that several other Trusts have received very similar requests recently.

These Trusts have contacted us to obtain their claims data in order to be able to respond to the request.

We can provide you with a Trust level breakdown of the claims data as we hold this information for the NHS in England.

Would it be ok to withdraw your request from the individual Trusts so that we can concentrate on one response.

We will respond directly to you and provide you with the Trust level breakdown. If this is ok with you please can you confirm that you will withdraw the requests made to individual Trusts in England?

We look forward to hearing from you.

[You replied on 13 January 2025]

Thank you for your email.

If you could provide me with the Trust level breakdown, I can confirm that you will withdraw the requests made to individual Trusts.

Our Response

Please find attached the requested information. Please note we only hold information for England and not for the rest of the UK.

NB: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to [Understanding NHS Resolution data - NHS Resolution](#).

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. **They are not guaranteed to be settled and closed in the same year.** As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as unsuccessful), challenged, reopened, and closed again at conclusion.

The data shows variation in numbers of cases closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved by NHS Resolution which can vary significantly. As such these fluctuations cannot be interpreted as trends.

The data includes claims under the Clinical Negligence Scheme for Trusts (CNST); Existing Liabilities Scheme and DHSC Clinical Schemes.

Please note: Cover under the Clinical Negligence Scheme for Trusts (CNST) has also been available to independent sector providers (ISPs) of NHS care since 1st April 2013,

but data relating to these ISPs have not been included in our response, as the request was for a breakdown by Trust.

For information about our Clinical Negligence Schemes, please visit our website here: [Clinical schemes - NHS Resolution](#)

Please note: the tables broken down by Trusts should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. In some circumstances, volumes of reported cases may be impacted by multiple claims notified in relation to one cause of action.

Table 1 shows: - Number and cost of CNST Claims Closed (or settled with a periodical payment order) between 2018/19 and 2023/24 financial years with Damages Paid. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 2 shows: - Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid, broken down by Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note Claims recorded against the Department of Health and Social Care (showing as Department of Health) and NHS England include liabilities arising from defunct NHS organisations, which transferred to the Secretary of State for Health and Social Care when those organisations were abolished.

Table 3 shows: - . Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid, broken down by Specialty. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4 shows: - Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid, broken down by Specialty and Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 5 shows: - Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid, broken down by Specialty and Primary Cause. The data includes the damages and

legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

PPOs

The information disclosed includes damages and costs paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages, costs and any PPO damages paid up to the end of the year of settlement. It does not include PPO damages, which have been committed to but due to be paid after the settlement year.

Low figures

We have not provided the information for low figures involved as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced several [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

Please refer to [Understanding NHS Resolution data](#) guidance for further details on how our Claims database is categorised.

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Deputy Director of Corporate Governance, Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

TABLE OF CONTENTS

NB: Number of claims fewer than 5 (and any associated values, within the same row) are masked with a "#" (in accordance with Data Protection guidelines). Accordingly, some total values may also be approximated to prevent masked values to be deduced through reverse calculation.

Table 1: Number and cost of CNST Claims Closed (or settled with a periodical payment order) between 2018/19 and 2023/24 financial years with Damages Paid. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 2: Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid, broken down by Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 3: Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid broken down by Specialty. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 4: Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid, broken down by Specialty and Trust. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 5: Number and cost of CNST Claims Closed (or settled with a periodical payment order) between the 2018/19 and 2023/24 financial years with Damages Paid broken down by Specialty and Primary Cause. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Table 1: Number and cost of CNST Claims Closed (or settled with a periodical payment order) between 2018/19 and 2023/24 financial years with Damages Paid. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.
